

Bloomberg Enterprise Data and Analytics

Summary

Item	Description
Release State	General Availability
Products	Power BI (Datasets)
Authentication Types Supported	Organizational account

Prerequisites

You must be a Bloomberg Anywhere subscriber and have a Bloomberg biometric authentication device (B-Unit) to use Bloomberg Enterprise Data and Analytics.

If you are not yet a Bloomberg Anywhere customer and would like to be connected to a leading information source for the world's most influential business leaders, please visit <http://www.bloomberg.com/professional/> to find out more about the Bloomberg Terminal®.

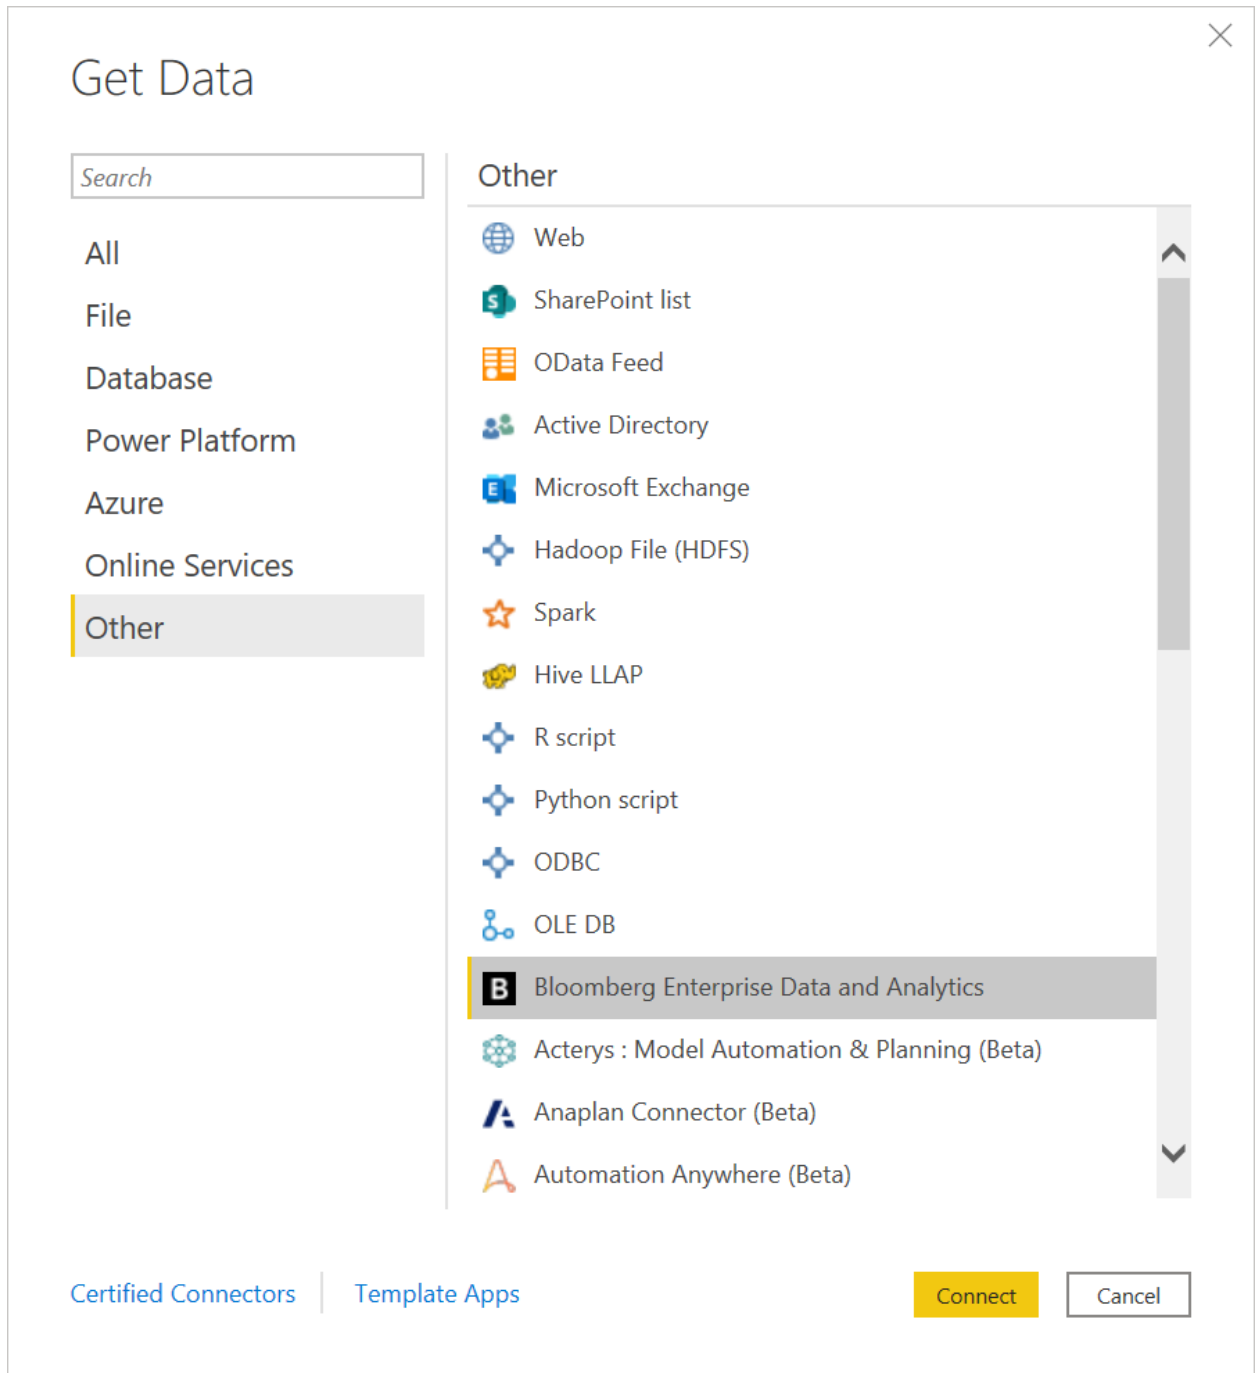

Capabilities Supported

- Import

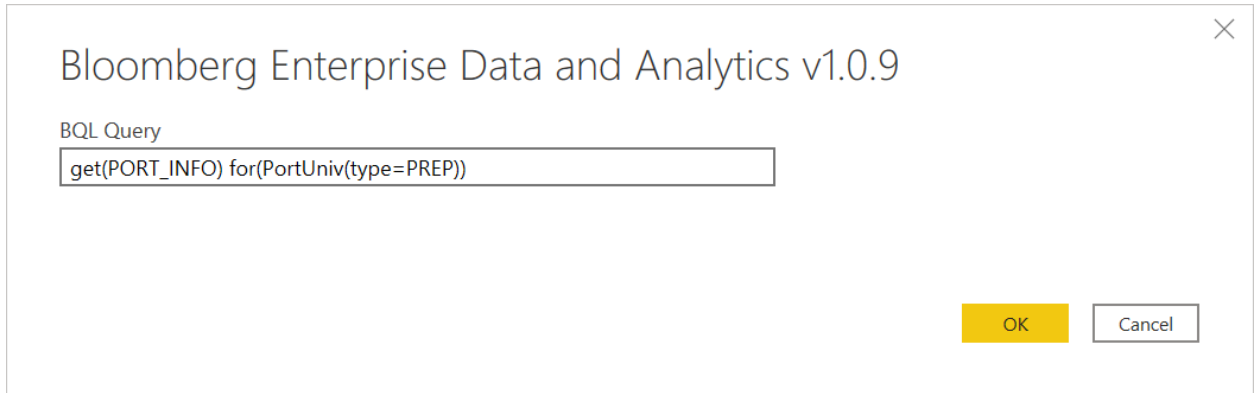

Connect to Bloomberg Enterprise Data and Analytics

To connect to Bloomberg Enterprise Data and Analytics:

1. Select **Get Data** from the **Home** ribbon in Power BI Desktop. Select **Other** from the categories on the left, select **Bloomberg Enterprise Data and Analytics**, and then select **Connect**.

2. If this is the first time you're getting data through the Bloomberg Enterprise Data and Analytics connector, a third-party notice will be displayed. Select **Don't warn me again with this connector** if you don't want this message to be displayed again, and then select **Continue**.
3. Enter a Bloomberg Query Language (BQL) query to specify what data you want to get. To learn more about BQL, please contact your Bloomberg Sales representative.

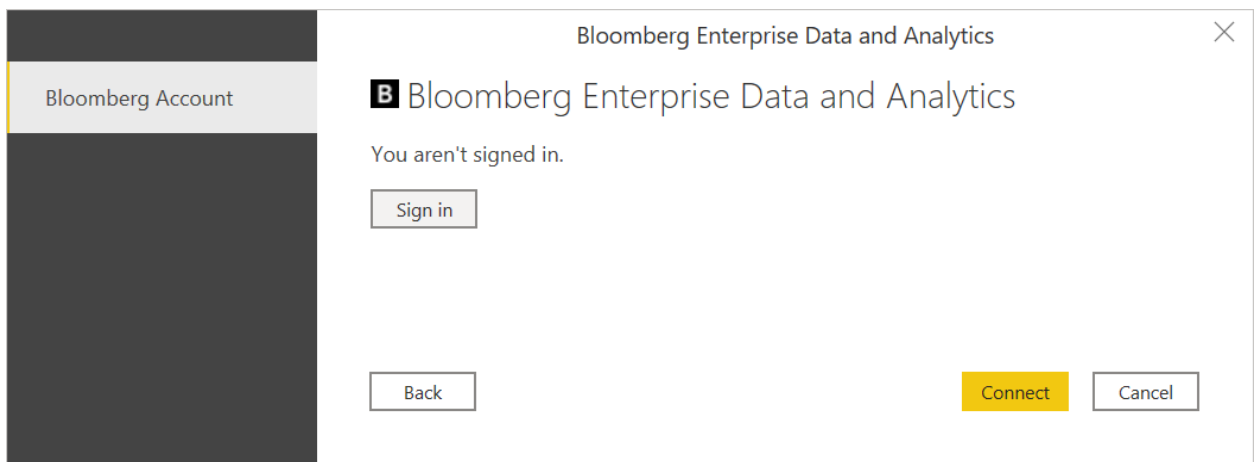

Bloomberg Enterprise Data and Analytics v1.0.9

BQL Query

get(PORT_INFO) for(PortUniv(type=PREP))

OK Cancel

4. To sign in to your Bloomberg Anywhere account, select **Sign in**.

6. Enter your B-Unit code and select **Log In**.

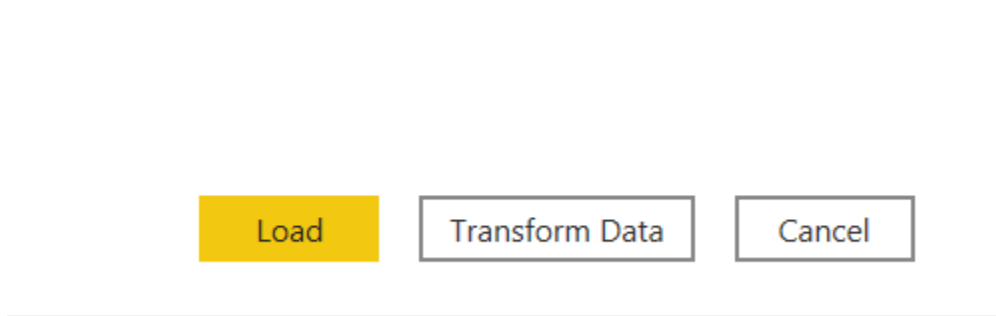

7. Once you've successfully signed in, select **Connect**.

Once the connection has been established, you will see data available for preview in **Navigator**.

You can **Load** the selected table, or you can select **Transform Data** to edit the query. This will open the Power Query Editor. You can then filter and refine the set of data you want to use, and then load that refined set of data into Power BI Desktop.

Next steps

For any assistance using BQL, please contact your Bloomberg Sales representative or type **HELP** in the command line on your Bloomberg Terminal and hit the **ENTER** key to contact Bloomberg's 24/7 support desk.
